Salesforce Accelerate

SALESFORCE CASE STUDY

Salesforce Accelerate aims to provide the information needed for startups to strategically align with Salesforce and accelerate their time-to-market with AppExchange. The Salesforce AppExchange is the world's largest and longest running enterprise app marketplace and is home to more than 5,000 solutions for sales, marketing, and other enterprise applications.

program

Salesforce Accelerate is a four-month long virtual program designed to lay the foundation for a meaningful partnership between startups and Salesforce and to accelerate the success of these startups in a fast-growing ecosystem. Salesforce Accelerate provides startups with access to mentorship, promotion throughout the Salesforce ecosystem and support such as web conferences, workshops and the ability to work with the people who can accelerate your time-to-market with AppExchange.

How Younoodle helps

Salesforce uses the YouNoodle engine to run its application and selection process through three different judging rounds. In addition, a YouNoodle Program Manager is available for dedicated phone, skype and email support.
